Two local radiologists inducted as Fellows in the American College of Radiology
Elliot Himmelfarb, M.D., and Enrique Arevalos, M.D. receive honor

FRANKLIN, Tenn. — Two Williamson Medical Center credentialed radiologists will be inducted as Fellows in the American College of Radiology (ACR) at a formal induction ceremony on May 17-21 in Washington, D.C.

Elliot Himmelfarb, M.D. and Enrique Arevalos, M.D., both with Advanced Diagnostic Imaging in Goodlettsville, Tenn., have worked in Williamson Medical Center's radiology department for more than 60 years, combined.

One of the highest honors the ACR can bestow on a radiologist, radiation oncologist or medical physicist is recognition as a fellow of the American College of Radiology. ACR Fellows demonstrate a history of service to the College, organized radiology, teaching or research. Approximately 10 percent of ACR members achieve this distinction.

Himmelfarb is a partner at Advanced Diagnostic Imaging and director of radiology at Williamson Medical Center. Himmelfarb is a member of the ACR, the Tennessee Radiology Society, the Tennessee Medical Association, the Williamson County Medical Association and the Tennessee Radiological Society. He is the secretary-treasurer of the Williamson Medical Society. He received his medical degree from the State University of New York Downstate Medical College in Brooklyn, N.Y.

Arevalos is both a member of the ACR and an alternate counselor for the organization as well. He is also a member of the Tennessee Radiological Society, the Tennessee Medical Association and the Williamson County Medical Association. He received his medical degree from the University of Texas Southwestern in Dallas.

“I am very honored in becoming a Fellow of the American College Of Radiology,” Himmelfarb said. “This is one of the highest professional honors that a radiologist may receive and only a small number of practicing radiologists ever receive it.”

Arevalos added, “The fact that Dr. Himmelfarb and I both received this verifies the quality of work that is done at Williamson Medical Center. This is quite an honor.”

ABOUT WILLIAMSON MEDICAL CENTER

Williamson Medical Center, a 185-bed hospital fully accredited by The Joint Commission, provides comprehensive inpatient and outpatient care including emergency services, with credentialed physicians in 53 specialties and sub-specialties. The community-focused hospital offers a wide range of wellness services, screenings and classes and in the summer of 2015 will open the doors to Monroe Carell Jr. Children’s Hospital Vanderbilt at Williamson Medical Center. For more information visit www.williamsonmedicalcenter.org.

ABOUT THE AMERICAN COLLEGE OF RADIOLOGY

The American College of Radiology (ACR), founded in 1924, is one of the largest and most influential medical associations in the United States. The ACR devotes its resources to making imaging and radiation therapy safe, effective and accessible to those who need it. Its 36,000 members include radiologists, radiation oncologists, medical physicists, interventional radiologists and nuclear medicine physicians.
